

You're Next Career Network: The Hub

Our Value Proposition

- ★ Create a centralized platform for U of T students to search through job opportunities, resources and upcoming events online
- ★ Provide a framework for Digital in the upcoming years to develop on The Hub and improve existing features based on needs
- ★ Allow YNCN companies to post opportunities online

Context

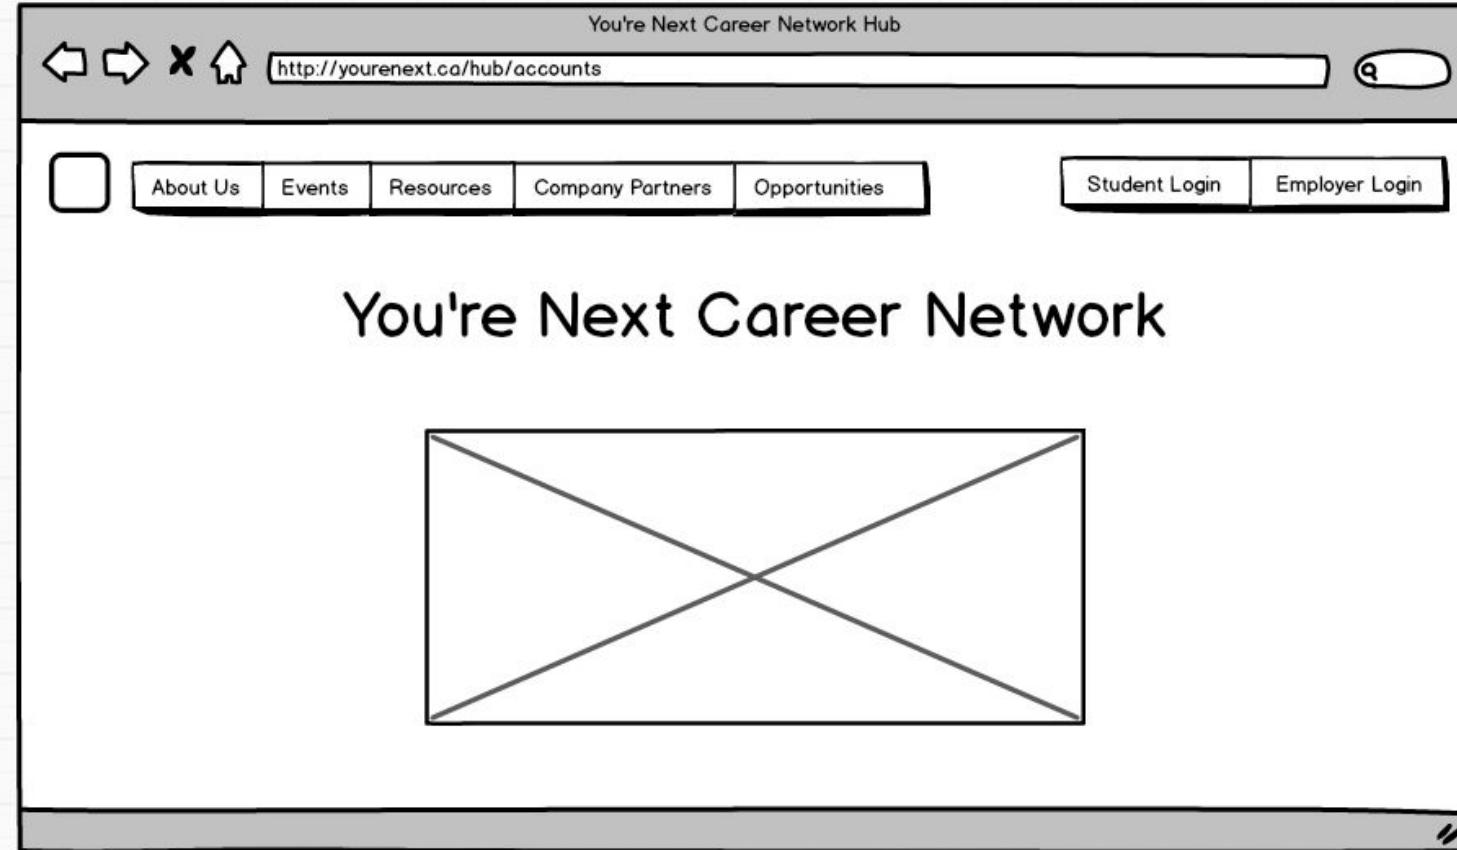

>

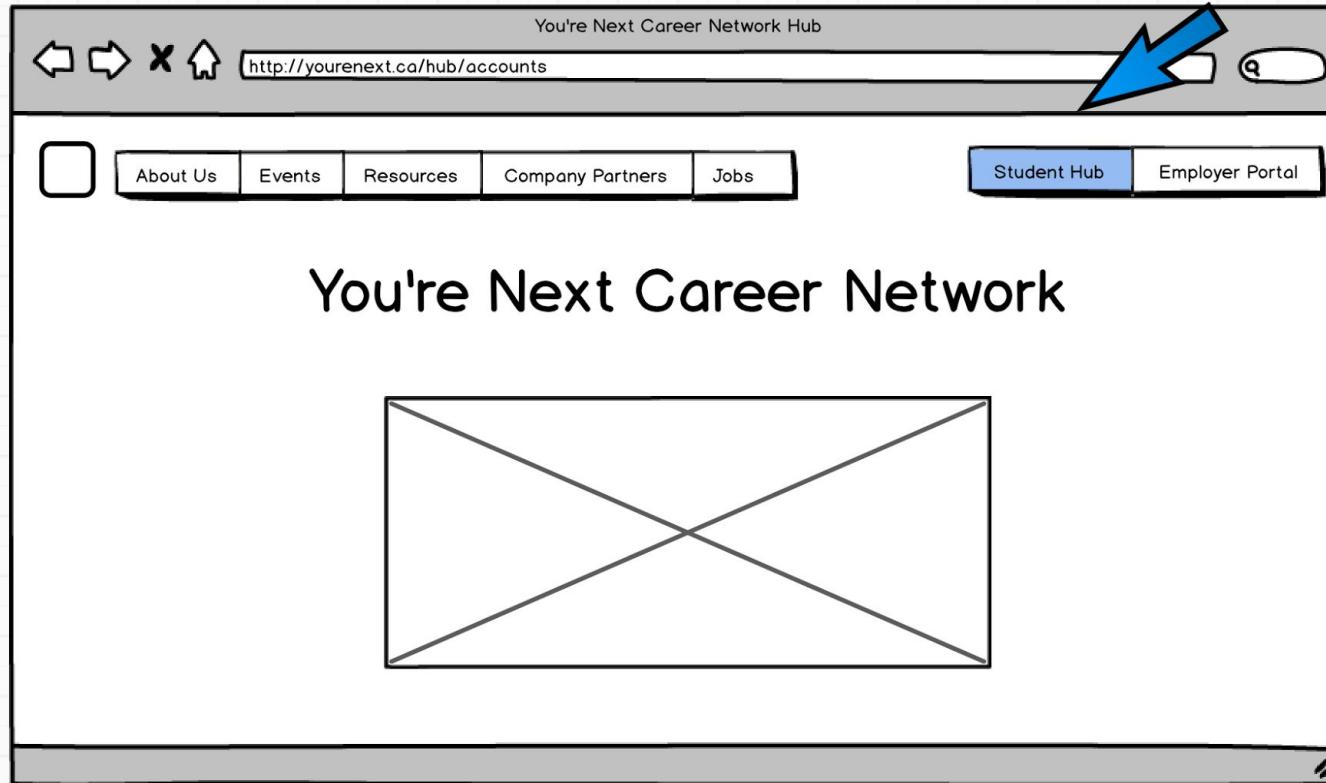

We are currently recruiting for next year's team! By joining our team you'll be able to make an impact on 6000+ students and 170+ employers, develop your skillset through training and experience, and work alongside like-minded, driven individuals.

The image shows a wireframe of a web browser window. At the top, the title bar reads "You're Next Career Network Hub" and the address bar shows the URL "http://yourenext.ca/hub/accounts". Below the address bar are standard navigation icons: back, forward, stop, and refresh. To the right of the address bar is a search icon. The main content area has a header with a logo placeholder, followed by a horizontal menu bar with links: "About Us", "Events", "Resources", "Company Partners", "Jobs", "Student Hub", and "Employer Portal". The main title of the page is "The Hub Registration: About Me". Below the title is a large rectangular form containing three input fields labeled "DISCIPLINE/FIELD OF STUDY", "YEAR OF GRADUATION", and "CAMPUS LOCATION". At the bottom left of the form is a link "The Basics" with a left arrow icon. At the bottom right is a blue button labeled "NEXT: Job Interests". A small double-quote icon is located in the bottom right corner of the browser window.

Application Instructions

The wireframe depicts a web browser window with a header bar containing navigation icons (back, forward, stop, home), a URL field (http://), and a search icon. The main content area is titled "YNCN Job Board" and features a search bar. Below this, a job listing for a "Full Stack Web Developer" is shown. The listing includes the posting date ("Posted: Jun 4, 2016"), a "Deadline: July 13, 2016", and an "Apply" button. The job description is divided into sections: "About Amazon", "Main Responsibilities:", "Qualifications", and "Nice To Have". Each section contains several bullet points represented by short horizontal lines with arrows. The footer of the browser window shows a standard address bar.

Build Your Career

Find Opportunity

Develop Skills

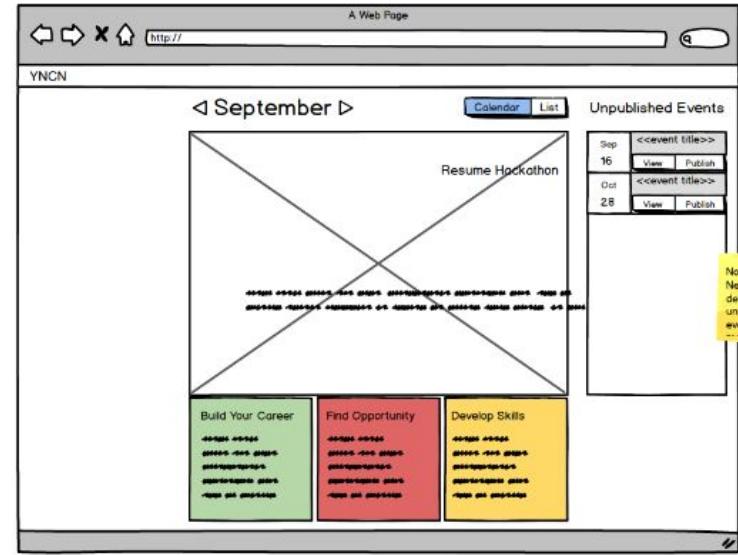

Create Event

The page features a header with navigation icons (back, forward, search) and a URL bar (http://). Below the header is a title 'YNCN'. The main content area has a heading '◀ September ▶' with tabs for 'Calendar' and 'List'. To the right is a sidebar titled 'Unpublished Events' showing two entries for September 16 and 28, each with 'View' and 'Publish' buttons. The central area contains a large empty grid with a large 'X' drawn through it. At the bottom are three colored boxes: green ('Build Your Career'), red ('Find Opportunity'), and yellow ('Develop Skills'), each containing a list of small icons.

Mobile Site Conceptualization

1 Not entirely sure how to allow filtering within a symmetrical, centered layout. May want to provide brief descriptions about the categories, but will users need to see that every time? The current layout doesn't

List View for Admins

A Web Page

The page features a header with standard browser controls (back, forward, search) and a URL bar set to 'http://'. Below the header is a title 'YNCN'.

The main content area includes:

- Event Search:** A search bar labeled 'event titles' with a magnifying glass icon.
- Filter Options:** Buttons for 'Build Your Career', 'Find Opportunit', and 'Develop Skill'. A dropdown menu for 'Year' (First, Second, Third, Fourth) and 'Discipline' (EngSci).
- Calendar Navigation:** Buttons for 'Calendar' and 'List'.
- Event Listings:** A grid of event cards.
 - September:** 'Resume Hackathon' (September 16, yellow card), 'Fall Career Fair' (September 26, red card).
 - October:** 'YNCN Hackathon' (October 2, yellow card).
 - November:** 'Startup Hopping' (November 12, red card).
- Show More:** A button at the bottom of the event grid.
- Unpublished Events:** A sidebar listing events with placeholder titles and actions.

Date	Title	Action	Action
Sep 16	<<event title>>	View	Publish
Oct 28	<<event title>>	View	Publish
- Create Event:** A button in the bottom right corner.

For now, users will have to create the event through separate platforms. Once the core features are implemented, we can work with EventBrite & FB APIs.

been't have to be too just use a regex making ??? and ? are included

Buttons should float like a FAB (floating action bar) found on mobile apps

Note to self "event saved" is merely a notification and not a button that is clickable (it can be clicked but nothing will happen.)

Create Event Interface

A Web Page
<http://portal.yncn/events/132421428>

YNCN

Note to self:
Computer security related - can we just simply toggle the edit button if the user is an admin or not (ie recycle the view)?? Someone can easily hook the HTML and make the changes. Need some data validation.

Sneak Peek... kudos to Events!

Events - Landing Page

The screenshot shows a web application interface for managing events. At the top left is a logo consisting of the letters 'Y', 'N', 'C', and 'N' in white on colored squares. To the right of the logo are navigation links: 'Events' and 'Resources ▾'. Below the header is a title 'YNCN Events v0.00001' and two buttons: 'Create an Event' and 'View on Google Calendar'. The main content area displays two event cards.
